DETAILED ACTION

Allowable Subject Matter

1. Claims 1-22 are allowed over prior art of record.

Reasons For Allowance

2. The following is an examiner's statement of reasons for allowance:

After further search and consideration of Applicants' Appeal Brief filed on May 1st, 2006 (see Applicants' arguments in Pages 5 and 7 of the March 1st, Appeal Brief), it is determined that the prior art of record neither anticipates nor renders obvious the claimed subject matter of the instant application as a whole taken alone or in combination, in particular, prior art of record does not teach "implanting a second dopant into said substrate beyond the LDD junction depth to form a source/drain region, the implantation of the second dopant of sufficient dopant concentration to overpower a portion of the LDD remote from said channel and a substantial portion of the first dopant to define a floating region of the first dopant completely within the LDD region, the source/drain region and said surface and remote from said channel region with reduced dopant concentration relative to the dopant concentration of the LDD region" as recited in independent claim 1, and "forming a source/drain region, formation of the source/drain region resulting in forming a floating structure from the shallow region that is located completely within the LDD region, the source/drain region and said surface and generally aligned with the side edge of the gate structure, the floating structure having reduced dopant concentration relative to the doping concentration of the LDD region", as recited in independent claim 13.

Claims 2-12 and 14-22 also allowed as being directly or indirectly dependent of the allowed independent base claims.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Khiem D. Nguyen whose telephone number is (571) 272-1865. The examiner can normally be reached on Monday-Friday (8:30 AM - 5:30 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Matthew S. Smith can be reached on (571) 272-1907. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
